

## European Cup Rule Book – Addendum

Dear Countries Representatives,

as the European committee, after receiving questions from some countries, we discussed the eligibility rule for teams at the next European Cup.

In fact, the European Cup rule book does not take into consideration that there were Junior teams at the last European Championship.

So, keeping in mind the existing rule for Freestyle Solo and Freestyle Pair that allows European Championship finalists to compete in the European Cup if they change age category (Junior who become Senior), this also applies to Freestyle Junior Teams moving up to senior.

Always keeping in mind the rule that a Freestyle Senior Team that is a finalist in the previous European Championship must change at least 50 percent of its contingent (i.e., it means that if 50 percent turns out to be a non-integer number it is approximated by excess).

We hope we have clarified and helped in the interpretation of the rules.

Please receive our warmest wishes for a good sports season.

The WBTF European Commission
